

V660 HDD_{evo}

Effectively erases hard drives

Fast, reliable and hands free

Average 5 second erase time per drive

High energy for complete erasure

Remote control operation

Cost effective

Bench top operation

The V660 HDD Evo is a high energy, bulk eraser especially designed to tackle the erasing of hard drives.

The vulnerability of information stored on PC hard drives is a recognised security risk. Unlike other PC data storage media, the hard drive always stays with the PC. Every time a PC leaves a company's control, all the data and company information will go with it. Even if the hard drive breaks down, the storage platters will still contain information which could be read once repaired. The V660 degausser is the surest and quickest way of eliminating information from hard drives. Although in most cases this will render the hard drive inoperative, the cost of a replacement hard drive cannot be compared to the cost to a company if sensitive information can be read by a third party.

Hard disk drives are placed into the V660 eraser, the lid is closed and the degauss button pressed. As hard disk drives are erased in only four passes, very little user intervention is required.

With safety in mind and to meet the latest NCNIRP Magnetic Exposure Guidelines, the V660 can be operated remotely via the infrared control. The unit can be locked in the manual or remote operation position by removing the key.

V660 HDD *evo*

Media Handling:	Hard Drives: PC, Laptop and Server (2.5" and 3.5")
Power Supply:	220 ~ 240v 50Hz 220v 60Hz
Current Rating:	9 amps typical
Degaussing Force:	6600 peak gauss
Duty Cycle:	Non-continuous. Average 10 minutes
Dimensions (WxHxD):	16.5" x 6" x 19" 420mm x 150mm x 480mm
Cut Out Dimensions:	With lid shut: Length: 5.75" (146mm) Width: 3.97" (101mm) Height: 0.98" (25mm) Maximum physical drive size is the standard 3.5", half height device
Weight:	77lbs (35kg)
Throughput:	40 Hard drives per duty cycle typical
Controls:	Mains On/Off Manual/Remote Key switch
Indicators:	On/Off Erase field Coil power supply warning light

Warranty

12 months back to base, all parts and labour included.
Extended warranties also available.
