

# Blu-Ray

Compatible with 25GB Blu-Ray discs

Built-in 500GB hard drive

User friendly & intuitive LCD panel

Standalone – no PC required

Easy to use

The Blu-ray PowerTower series provides high-capacity data recording and duplication of over 25GB per disc – that's 5 times more than a standard DVD (4.7Gb).

The Blu-ray PowerTower duplicators employ up to 11 target drives for duplication. A 500 GB hard drive comes standard with all systems and allows for image archiving of up to 25GB. This dynamic hard drive partition system saves hard drive space by creating partitions according to the image size.

Blu-ray PowerTower duplicators are extremely user friendly and with virtually no training at all, anyone can be copying discs in no time. An intuitive, menu-driven display and a 4-button control interface provide one-touch operation for the novice user while providing advanced features for the professional.

Rigorously tested for performance and reliability, Blu-ray Towers are manufactured to strict quality control standards, delivering enhanced duplication at every level and at all times.

# Blu-Ray

Function: High Definition, Large Capacity Duplication

---

Media Handling: BD-R SL, BD-R DL, BD-RE SL, BD-RE DL, DVD±R/RW, DVD+R DL, DVD-R DL, DVD-RAM, CD-R/RW
