

Prints CD's, DVD's & Blu-rays at the touch of a button

High quality interchangeable printers

Sturdy and compact design

220 disc capacity

Network enabled with DiscPilot

Manually loading CDs, DVDs or Blu-ray discs into a printer can be a time-consuming and laborious task, especially if your requirement for printed discs exceeds more than ten at a time. The new Ice CopyDisc Platinum Series offers the perfect solution affording users the ability to print up to 220 discs at any one time.

Designed to offer maximum versatility, the new Ice CopyDisc Platinum can be fitted with a variety of industry-leading printers to deliver the very best disc printing solutions on the market. For photo-quality inkjet printing, choose the high-volume Panther or the Puma for the most cost effective inkjet printing available. Or take the Teac P-55, featuring the very latest disc printing technology, delivering the best retail quality output possible. Choose the Prism thermal printer for high-speed, low cost printing. Whatever printer you decide on, you'll never be tied to it, as all printers are easily interchangeable with the appropriate printer plate.

Ice CopyDisc Platinum printers are operated using DiscPilot advanced networking software. There is no drive fitted so the system is run directly from a PC on a network. This easy to use yet sophisticated and versatile disc printer management software system provides multiple users with access to one of Verity Systems range of automatic printers. DiscPilot allows an Ice CopyDisc to act as a peripheral device across
