User friendly & intuitive LCD panel

Auto format recognition

High-speed USB 2.0 connection

Standalone – no PC required

Easy to use

Are you still labelling your CDs and DVDs with sticky labels or permanent markers?

The new Verity Systems LightScribe PowerTower allows users to copy discs and then laser burn photo and text artwork directly onto these discs – all from the same machine.

LightScribe is a new technology using specialized drives, discs and labelling software to laser-etch your own custom designs onto your CDs and DVDs. This process requires no ink which eliminates all of the problems associated with conventional labelling such as smudging, cracking and peeling. This single target 16x CD/DVD LightScribe PowerTower Duplicator is easy to use and comes with everything you need to make your own personalised CDs and DVDs.

Copying and printing onto discs can now be achieved on LightScribe certified media in 3 east steps.

The new LightScribe PowerTower comes with Nero Suite 2 Burning/ Labelling Software and includes pre-made background layouts for you to choose from along with instructions for custom laser-etched designs. This easy to use software will have you creating custom CDs and DVDs in no time!
