

Prism Plus!

300 x 600 dpi resolution

Fast and affordable production

Highly scratch and smudge resistant prints

Requires no drying time

Rugged durability for 24/7 use

Desktop printer or combine with CopyDisc automated loading system

The Rimage thermal CD/DVD printer offers an impressive range of features to anyone who duplicates CD-R's or other 120mm optical media such as CD-RW and DVD-R. The printer is capable of on-demand printing at fast print speeds, and its rugged durability allows 24-hour, 7 day use.

You can print highly durable text and colourful graphics onto a wide variety of standard lacquer-surface media types, eliminating the need for special printable surface discs. You can print one colour or full colours using virtually any combination of text, graphics, logo, photo's or other artwork.

The Rimage thermal printer can print discs at up to 300 x 600 dpi and has a printing speed of around 50 seconds per disc (depending on image resolution and printer mode).

As thermal inks are used in the print process, the drying time required for some other printing methods is eliminated. Cost per copy is also very affordable when compared to other printing methods. The low cost thermal ribbon can produce 500 colour images or using a mono ribbon 1500 images can be produced.

As a desktop printing solution, the Prism Plus! is ideally suited for low volume/small business user, however, the Prism Plus! can also be used in conjunction with an autoloader or automated disc duplicator for fast, unattended printing and duplication of greater quantities, perfect for even the most demanding of professional duplicators.

In addition to the simple standalone printing solution, the Prism Plus! can also be integrated with a CopyDisc autoloader providing automated thermal printing of up to 220 discs at a time. Combine with a CopyDisc duplicator, for the ultimate CD and DVD publishing system.

Prism Plus!

Function:	Print Only
Media Handling:	Thermal printable CD/DVD's
Maximum Resolution:	300 x 300dpi
Ribbon Types:	3-colour (CMY) Ribbon Monochrome Ribbon (black, red or blue)
