

TEAC P55C

Highest Image Quality Disc Printer

Fast print speeds, up to 68 discs per hour

Four-colour CMYK technology with "True Black"

No need to coat discs

Includes easy-to-use graphics software

Desktop printer or combine with CopyDisc automated loading system

The new TEAC P-55C thermal printer changes the standards for image resolution, quality and print speeds. TEAC P-55C is the world's only dye-sublimation thermal disc printer providing the world's highest image quality and fastest print speeds in its product class. It is also the only full-color CMYK (Cyan, Magenta, Yellow, Black) thermal printer with "True Black".

The new TEAC P-55C features the exclusive VersaMax ribbon, providing the widest media compatibility. There is no need for media kits anymore. If you have a favorite media, you may choose to print on the same media!

TEAC's P-55C printer holds the disc from the center hub therefore providing the most accurate disc-handling. The TEAC P-55C is designed as a professional solution that can be used in various corporate areas and industries and is perfect for software and music distribution, for company presentations or for local sales promotions. Professional duplicators will also find the TEAC P-55C to be an invaluable addition to their just-in-time applications.
