
Product features

- Packs DVD Amaray cases quickly
- Time saving
- Ergonomic
- Adaptable
- Table-top unit
- Fully transportable

The DVD100 from JMV Robotique is designed to help the operator to package CDs or DVDs in an Amaray type box.

The operator opens the box and puts it on the specially shaped metal support. With both hands free, he then can insert easily the outer paper jacket, disc(s) and/or booklet.

Both spindle pins can be mounted and either side can be used for booklet storage.

The DVD100 saves up to 50% time spent in manual packaging of DVDs and other similar products.
